CAREER OBJECTIVE

Seeking a Web UI Developer position in a company where I can use my skills to benefit the company.

SUMMARY

Recent graduate with Masters of Computer Science. Excellent research, time management and problem solving skills. Highly organized with the ability to manage multiple projects and consistently meet deadlines.

TECHNICAL SKILLS

Languages: Java, JavaScript

Operating Systems: UNIX/Linux, Windows

Web Technologies : HTML5, CSS3, JavaScript, JQuery, AngularJS, AJAX **Database:** Oracle,SQL,MYSQL

EDUCATIONAL QUALIFICATION

Masters in Computer Science from Northwestern Polytechnic University, Fremont, California (2016)

Masters in Business Administration and Finance from GITAM University, Visakhapatnam, India (2011)

Bachelors in Science in Bio Technology from UTKAL University, India (2009).

ACADEMIC PROJECTS

Course : Capstone project

Developed Online Library Management System where the user is allowed to search, read, store and books by giving a simple query. It uses Google API to import books and also searches books in google books.

This application was developed using HTML5, CSS3, AngularJS and Javascript for front end. NodeJS used for backend and Mongo DB is used as persistence Layer.

Course : Web Services Techniques and REST Technologies

Developed online Restaurant application rest services. This backend application was developed using Spring Boot , Rest Services and Mysql. Developed rest services adhering to Rest full standards involving all REST Operations like (GET,PUT,POST,DELETE,PATCH).

Used Spring data as DAO layer and used mysql as persistence database.Implemented using Spring framework.

Course: Web Front-end Programming for Mobile Device

Developed Meet up/Event Scheduling application. This application was developed using HTML5 and JS for front end. NodeJS used for backend and Mongo DB is used as persistence Layer.

Lead my team in completing this project and successfully delivered project in time following Test Driven development. In the process of development we also integrated with Continuous deployment tool for running application and deployed to Cloud using Heroku and AWS.

ADDITIONAL CAPABILITIES

Demonstrated ability to work independently as well as in a team environment. Able to thinking outside the box to get things done

Excellent written and verbal communication skills

Strong desire and aptitude to learn new technologies
